***National Dialogues on Behavioral Health Partners:
The National Association of State Mental Health Program Directors (NASMHPD)
The Western Interstate Commission for Higher Education Behavioral
Health Program (WICHE-BHP) and
The National Association of County Behavioral Health and Disability Directors
(NACBHDD)***

CONFERENCE AGENDA

Sunday, November 8, 2026 - Pre-Conference

- 9:00 – 9:30** **Registration and Coffee**
- 9:30 – 9:45** **Pre-Conference Overview**
- 9:45 – 1:30** ***Artificial Intelligence and Behavioral Health: Introduction and Overview***

This pre-conference is an introduction to artificial intelligence (AI) and its applications to behavioral health. The objective of this session is to provide a broad orientation to artificial intelligence and to the various ways in which AI can contribute to behavioral health programs and support services. The goal is to help attendees understand and participate in the conference sessions that will cover the same areas in greater depth and detail. An overview of rudiments of artificial intelligence and its use in behavioral health clinical and support systems, the dangers and challenges of AI application, and issues related to training and implementation of AI in behavioral health settings will be provided.

The pre-conference will also include presentations by developers of tools and apps who will describe functions, outcomes achieved, training required, and challenges in implementation.

Speakers: Stephanie Hepburn, JD, Editor-in-chief of the publication CrisisTalk and the CCO at Recovery Innovations; Jessica Pollard, Ph.D., National Association of State Mental Health Program Directors; AI Tool Developers/Innovators: TBA

Monday, November 9, 2026

- 8:00 – 8:30** **Registration and Continental Breakfast**
- 8:30 – 8:45** **Welcome and Overview – Vijay Ganju, Ph.D., President, NDBH**
- 8:45 – 10:15** ***Artificial Intelligence and Behavioral Health: An Introduction to Basics and Tools***

This plenary session provides an introduction and an overview of the fundamentals of Artificial Intelligence (AI) in healthcare in general and in behavioral health in particular. The evolution of AI in both mental health and substance use treatment and support will be covered, and effective AI tools will be reviewed. The issues that arise in the application of AI to personalized treatment and self-help, the provision of clinical care and support, the adoption and implementation of AI at the organizational level, and the need for governance, regulatory and accountability infrastructure will be addressed. Also

addressing concerns about potential negative aspects related to data privacy, confidentiality, equitable access and algorithmic reliability will be a key aspect of this session.

Speakers: Jeff Greenberg, Ph.D., Associate Director, Guidehouse; Stephanie Hepburn, JD, Editor-in-chief of the publication CrisisTalk and the CCO at Recovery Innovations; Reactant: Johnny Crowder, CRPS, CEO & Founder, COPENOTES.

10:15 – 10:30 **Break**

10:30 – 11:15 ***Artificial Intelligence and Behavioral Health: An Introduction to Basics and Tools (Continued)***

11:15 – 12:00 **Discussion and Dialogue**

12:00 – 1:30 **Lunch on Your Own**

1:30 – 3:00 ***Data and Predictive Analysis Using Artificial Intelligence***

AI is especially strong at detecting patterns that humans might miss. AI uses data and predictive analysis to improve behavioral health care and outcomes. These predictive models use different models including: Speech and language analysis; Behavioral data, including sleep patterns and activity logs; Social media and text analysis; Databases of therapeutic notes and records in substance use that are used for risk prediction, early warning signs and prescription monitoring. This session will describe how predictive analysis is implemented and applied, and all the precautions and safeguards that must be in place to ensure optimal outcomes.

Speakers: Jeff Greenberg, Ph.D., Associate Director, Guidehouse; Shannon Wiltsey Stirman, Ph.D., Co-Director, CREATE Center, Stanford University; Megan Stubbs-Richardson, Ph.D., Social Science Research Center, Mississippi State University

3:00 – 3:15 **Break**

3:15 – 4:00 ***Data and Predictive Analysis Using Artificial Intelligence (Continued)***

4:00 – 4:45 **Discussion and Dialogue**

5:00 – 6:30 ***Reception and Networking (Renaissance Arts Art Gallery)***

Join us for hors d'oeuvres and beverages in a relaxed and collegial atmosphere while having an opportunity to dialogue with today's speakers, conference sponsors, and other conference attendees to learn more about the topics discussed during today's sessions.

Tuesday, November 10, 2026

8:00 – 8:30 **Registration and Continental Breakfast**

8:30 – 8:45 **Overview of the Day**

8:45 – 10:15 ***Artificial Intelligence in Behavioral Health Clinical Care and Support***

AI-driven tools including chatbots, virtual therapists, and diagnostic accuracy aids are transforming how behavioral health clinical care and support are delivered. These tools are being used in early detection and diagnosis, treatment planning, addiction treatment, and for reducing symptoms of depression and anxiety. Popular apps (e.g. Apple's Health and Mindfulness App, Woebot's AI-driven mental health support, WYSA's AI-powered Cognitive Behavior Therapy, LYSSN's motivational interviewing app) are universally and easily available. At the same time there are specific apps that help behavioral health organizations scale access and improve care. This session will describe the various ways AI is augmenting care with a focus on how clinicians can learn to capitalize on these tools and how organizations can support uptake and training. Implementation challenges and issues related to data privacy and confidentiality will also be addressed.

Speakers: Phillip Olla, Ph.D., University of Detroit, Chris Kennedy, M.D., Harvard University;
Reactant: Johnny Crowder, CRPS, CEO and Founder, COPENOTES

10:15 – 10:30 **Break**

10:30 – 11:15 ***Artificial Intelligence in Behavioral Health Clinical Care and Support (Continued)***

11:15 – 12:00 **Discussion and Dialogue**

12:00 – 1:30 **Lunch on Your Own**

1:30 – 3:00 ***Artificial Intelligence and Behavioral Health: Governance, Regulation and Accountability***

While AI provides opportunities and efficiencies covered in the other sessions, there are also serious risks and ethical concerns. AI chatbots may provide inaccurate, misleading or harmful responses. Besides issues related to safety and harm, there are also issues of transparency and autonomy. Users may not know how decisions are being made or whether they are interacting with AI rather than a clinician. There can also be algorithmic bias and inequity. Several states such as Illinois, Nevada, and Texas have developed state-level legal and regulatory frameworks. Some states like Colorado have enacted AI laws. Consensus and Best Practice Guidelines have been and are being developed; and there are a range of accountability mechanisms. Despite these efforts, there are significant gaps, especially because state laws vary widely. This session will review the advances that have been made in the different areas and the future directions of work that are needed to ensure appropriate implementation.

Speakers: Carrie Slatton-Hodges, Ph.D., NASMHPD Research Institute; Alka Menon, Ph.D., Yale University; Kim Corace, Ph.D. and Amy Porath Eves, Ph.D., Canadian Centre on Substance Use and Addiction.

3:00 – 3:15 **Break**

3:15 – 4:00 ***Artificial Intelligence and Behavioral Health: Governance, Regulation and Accountability (Continued)***

4:00 – 4:45 **Discussion and Dialogue**

Wednesday, November 11, 2026

8:00 – 8:30 **Registration and Continental Breakfast**

8:30 – 8:45 **Overview of the Day**

8:45 – 10:00 ***Artificial Intelligence and Behavioral Health: Impact on the Workforce***

Given the potential benefits, AI is likely to have a major impact on the workforce. In clinical support, AI is being used for symptom screening, measurement-based care, and clinical support. AI is also being used for automated documentation and note taking, for scheduling, intake and insurance verification and for prior authorization support. AI is also used for psychoeducation, between-session support and in stepped-care models. All these uses will result in clinicians spending less time on paperwork and more time on human connection, resulting in task redistribution. At the same time, the advent of AI will require new roles in behavioral health organizations. These include digital mental health specialists, AI-informed care coordinators and clinical supervisors overseeing AI-enabled care. Clearly AI will redefine the workforce. This session will cover the changing roles entailed by AI, the organizational support needed for the uptake of AI, and the training resources needed for the implementation of an increasingly AI-driven system of care. Examples of best practices will be provided.

Speakers: Shannon Wiltsey Stirman, Ph.D., Co-Director, CREATE Center, Stanford University; Elisa Boah, Ph.D., University of Texas; Kollin Napier, Ph.D., Director, Mississippi Artificial Intelligence Network; Sam Dorison, Co-founder and CEO, ReflexAI

10:00 – 10:15 **Break**

10:15 – 11:30 ***Artificial Intelligence and Behavioral Health: Impact on the Workforce (Continued)***

11:30 – 12:00 **Discussion and Dialogue**

12:00 – 12:15 **Wrap Up and Closing**

***NDBH CONFERENCE HOTEL
Renaissance Arts Hotel (Warehouse District)
700 Tchoupitoulas St
New Orleans, Louisiana 70130***

We are pleased to be able to offer a nightly rate of \$157 plus applicable state and local taxes (17.5%) and a city occupancy fee of \$1.00 per night. Reservations are available for the nights of Saturday, November 7th thru Tuesday, November 10th with a check-out Wednesday, November 11, 2026.

Reservations on Line: <https://book.passkey.com/go/NDBHMEETING2026>

Reservations by Phone: 1-800-431 -8634. Please ask for the NDBH or National Dialogues on Behavioral Health Conference Rate.

The Cut-off Date for the NDBH Special Rate: Friday October 16, 2026

Hotel Parking: Short-Term 0 – 8 hours: \$15.00 (plus tax); Long-Term/Overnight: \$47.00 (plus tax).

There will be an additional charge for oversized vehicles based on availability.

Check our website at <https://nationaldialoguesbh.org> for conference updates

National Dialogues on Behavioral Health Executive Board

<p><i>Vijay Ganju, PhD (Texas)</i> NDBH President President and Chief Executive Officer Behavioral Health Knowledge Management</p>	<p><i>Kelly Breland, CPA (Mississippi)</i> NDBH Board Co-Treasurer Chief Financial Officer Mississippi Department of Mental Health</p>
<p><i>Jacqueline A. Fleming, LCSW (Mississippi)</i> NDBH Co-Treasurer Consultant</p>	<p><i>Deborah Westvold, LISW (Iowa)</i> NDBH Secretary Consultant</p>
<p><i>Jonah Cunningham, MPP (District of Columbia)</i> Chief Executive Officer, Executive Director National Assn of County Behavioral Health and Disability Directors; National Assn for Rural Mental Health</p>	<p><i>Joseph J. Bodenmiller, DM, LCSW-BACS (Louisiana)</i> Private Practice</p>
<p><i>Rosanna DiChiro, PsyD (Louisiana)</i> Executive Director Jefferson Parish Human Services Authority</p>	<p><i>Brian M. Hepburn, MD (Virginia)</i> Executive Director National Assn of State Mental Health Program Directors</p>
<p><i>Meighan B. Haupt, MS (Virginia)</i> Chief of Staff National Assn of State Mental Health Program Directors</p>	<p><i>Debra Kupfer, MHS (Colorado)</i> Consultant Western Interstate Commission for Higher Education Behavioral Health Program</p>
<p><i>Melanie Norwood, MS, LPC (Mississippi)</i> NDBH CE Coordinator Inactive Counselor</p>	<p><i>Stephen W. Phillippi, Jr, PhD, LCSW, CCFC (Louisiana)</i> Program Chair- Community Health Science & Policy at the Louisiana State University School of Public Health</p>
<p><i>Vanessa Roup, MPH (Colorado)</i> Technical Assistance Associate Western Interstate Commission for Higher Education Behavioral Health Program</p>	<p><i>Carrie Slatton-Hodges, PhD (Virginia)</i> Executive Direction – National Association of State Mental Health Program Directors Research Institute</p>
<p><i>Charles H. Smith, PhD, MA (Colorado)</i> Director, Behavioral Health Lead, Greenhouse, Inc.</p>	<p><i>Mary E. Smith, PhD (Illinois)</i> Senior Policy Analyst; Consultant The Behavioral Health Crisis Hub@ The Center for Social Policy and Research Jane Addams College of Social Work University of Illinois Chicago</p>
